

Demantra Replacement Program

Migrate from Demantra to New Horizon in 4 to 6 weeks

Upgrade to New Horizon Demand Planning and S&OP

If you're like most companies still running Oracle Demantra Demand Management and Real-Time Sales and Operations Planning legacy applications, you're probably thinking about upgrading to a modern SaaS alternative. New Horizon Demand Planning and Sales and Operations Planning should be at the top of your list. Our cloud-based AI-powered alternative to Demantra offers increased forecast accuracy, greater ease of use, and significantly lower total cost of ownership. Perhaps best of all, you can replace Demantra in 4-6 weeks, with minimal transition support needed from your IT staff.

Robust Methodology Gets You Up and Running in 4-6 Weeks

Our implementation group has extensive experience working with Oracle Demantra clients and has developed a robust four-step methodology for migrating your Demantra configurations to New Horizon without requiring

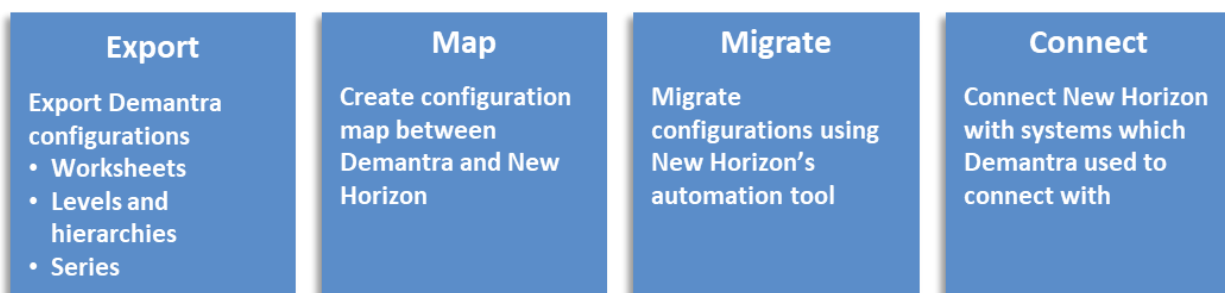

a lengthy implementation project. With this approach, we can move you to New Horizon's software quickly, inexpensively, and with minimal risk. The 4-6 weeks timeframe is for one application, with additional time needed for multiple applications.

Top 8 Reasons to Migrate From Demantra to New Horizon

You will receive numerous benefits by migrating from Demantra to New Horizon:

- A modern cloud solution that will grow with your business, not a legacy solution
- AI technology for improved forecasts, data quality analysis, and automated demand segmentation
- SaaS solution: Minimal demand on your IT staff and lower support and administration costs
- Easier to use, less training required
- No need for Oracle Database administrators
- No need for periodic forecast engine tuning
- New Horizon's experience working with Oracle Demantra clients
- Migration in only 4-6 weeks

Demantra to New Horizon Migration Methodology

We implemented New Horizon Demand Planning and Sales and Operations Planning systems to replace Demantra and we have achieved great results. We were able to implement the system very quickly with 1 month for Demand Planning and another month for Sales and Operations Planning.

License New Horizon for No More Than You Already Pay Oracle Just for Annual Support*

For a limited time, New Horizon is offering to cap our annual SaaS subscription fee at the level you currently pay to Oracle for annual support for the equivalent Demantra Demand Management and Real-Time Sales and Operations Planning (RT S&OP) applications. This means Demantra owners can migrate to New Horizon applications without increasing annual payments to their software vendor.

The New Horizon Suite: Planning Made Easy

Demand Planning and Sales and Operations Planning are just two applications in New Horizon's comprehensive planning suite. The New Horizon Suite brings a more modern approach to supply chain planning software. We leverage the latest advances in AI, machine learning, and cloud technologies to offer better plans, a more intuitive user experience, and quicker, less expensive implementations. The result is superior service levels, reduced inventory, faster time to value, and lower TCO. New Horizon – Planning Made Easy™.

*Note: Offer valid through December 31, 2024, with pricing to be locked in for the duration of the customer's SaaS subscription contract with New Horizon. Offer cannot be applied to support fees paid to non-Oracle third-party support providers. Customers replacing Demantra Demand Management with New Horizon Demand Planning would pay a maximum annual SaaS subscription fee of their current Demantra Demand Management annual support fee paid to Oracle. Customers replacing both Demantra Demand Management and RT S&OP with New Horizon Demand Planning and S&OP would pay a maximum annual SaaS subscription fee of their current Demantra Demand Management and RT S&OP annual support fee paid to Oracle. Please note that we reserve the right to modify or cancel this offer at any time without prior notice.
